

SCHNELL UNDER DESK SPINE CABLE MANAGER

The Schnell Spine Cable Manager offers sleek, under-desk cable concealment with a modular "vertebrae" design. Clamp-on installation eliminates the need for tools or drilling. Easily customized in length by adding or removing segments, it keeps cables organized, hidden, and safe from wear—perfect for modern workstations and adjustable-height desks.

MATERIAL CONSTRUCTION		PHYSICAL CHARACTERISTICS	
Spine Segments	: High-quality ABS plastic segments	Typical Length	: Adjustable (10+ segments; segment length approx. 50 mm)
Core Segment Material	: Embedded steel insert for enhanced structure support	Segment Diameter	: Approximately 30 mm per vertebra
Joint Type	: Flexible snap-fit vertebrae configuration	Clamp Capacity	: Fits desk edges from 10 mm to 40 mm thick
Base Clamp Material	: Powder-coated steel with screw tightening clamp mechanism	Colour Options	: Black, White
Installation Method	: Clamp-on to desk underside—no drilling required	Mount Stability	: Weighted or screw-tight clamp ensures secure hold
KEY FEATURES		KEY APPLICATIONS	
<ul style="list-style-type: none"> • Tool-free, clamp-on installation—desk-friendly and damage-free • Modular spine allows adjustable length to suit desk height • Quad cable channels for neat separation and organized routing • Flexible yet secure vertebrae design adapts to movement • Durable ABS and steel construction for long-term use 		<ul style="list-style-type: none"> • Designed to maintain minimum cable bend radius per best practices • Non-drilling installation preserves desk warranty integrity • Eco-conscious materials, RoHS compatible
