

## SCHNELL WALL MOUNT FTTH CABINET

Schnell Series single-section wall mount cabinets are designed for secure, compact installation of 19" networking and telecom equipment. Constructed from welded SPCC cold-rolled steel with powder coating, they feature a lockable tempered glass door, removable side panels, and top/bottom cable entries. Ideal for offices, data rooms, and CCTV applications.

### DIAGRAM

### CONSTRUCTION

|                   |   |
|-------------------|---|
| Material          | : SPCC Cold-rolled steel                    |
| Surface Finish    | : Electrostatic powder-coated               |
| Protection Rating | : IP20                                      |
| Front Door        | : 5 mm tempered glass, lockable, opens 120° |
| Cable Entry       | : Top & bottom panels                       |
| Mounting Rails    | : Adjustable 19" rails (front)              |
| Color Options     | : Black RAL 9005 (others on request))       |

### PHYSICAL CHARACTERISTICS

|                       |                                  |
|-----------------------|----------------------------------|
| Loading Capacity      | : Up to 30 kg                    |
| Mounting Type         | : Wall mount / surface mount     |
| Door Opening          | : 120° (standard)                |
| Sizes Available       | : 6U, 9U, 12U, 15U, 18U          |
| Depth Options         | : 450 mm / 600 mm                |
| Ventilation           | : Passive, perforated top/bottom |
| Operating Environment | : Indoor                         |
| Side Panels           | : Removable, lockable            |

### KEY FEATURES

- Compact single-section welded design
- Lockable tempered glass front door
- Adjustable 19" rails
- Easy cable entry (top & bottom)
- Removable side panels for quick access

### KEY APPLICATIONS

- LAN/WAN networking
- Small data rooms & offices
- CCTV & security systems
- VoIP & telecom equipment
- AV installations

### REACTION TO FIRE

|                |   |
|----------------|---|
| Enclosure Body | : Non-combustible steel                       |
| Finish         | : Powder coating, compliant with safety norms |

### STANDARDS

- ANSI/EIA RS-310-D
- IEC 60297 general requirements
- ISO/IEC 297 for rack mounting
- RoHS compliant
