

SCHNELL PVC FACE PLATE

Schnell offers a versatile range of faceplates designed to support multiple information outlet configurations. These faceplates are fully compatible with Schnell’s keystone jacks, Euro-LJ6C modules, blank inserts, brackets, and other components—ensuring flexible, efficient, and professional installation options for structured cabling systems in residential or commercial setups.

DIAGRAM		DIMENSION	
		Face plate (UK Style)	: 86 × 86 mm
		Face plate (Euro Style)	: 80 × 80 mm
PHYSICAL CHARACTERISTICS		MECHANICAL CHARACTERISTICS	
Material	: Flame-retardant PVC (UL 94V-0 rated)	Mounting Type	: Screw-fit (single/dual gang compatible)
Color	: White (RAL 9003 or equivalent)	Impact Resistance	: IK08 (if applicable/tested)
Dimensions	: Standard (e.g., 86mm x 86mm)	Cable Entry	: Angled ports improve bend radius
Port Types	: 1, 2 (flat or angled)	Insert Compatibility	: Keystone jacks, Euro-LJ6C, blanks
Labeling Area	: Yes, for easy port identification	Durability	: >250 insertions (if tested)
Finish	: Smooth, scratch-resistant surface	Operating Temperature	: -10°C to +60°C
RoHS Compliance	: Yes	Storage Temperature	: -25°C to +70°C
KEY FEATURES		KEY APPLICATIONS	
<ul style="list-style-type: none"> • Available in angled and flat styles • Supplied with fixing screws • Complies with ANSI/TIA/EIA 568A-B.2.2001 standards • Angled ports minimize cable stress and improve bend radius • Includes designated label area for easy identification • Supports use of blanking modules for unused ports 		<ul style="list-style-type: none"> • Structured cabling installations (voice & data) • Compatible with keystone jacks and Euro-LJ6C modules • Ideal for commercial, residential, and office wall outlets • Supports network, telephone, and multimedia faceplate needs
