

SCHNELL CAT6 BOOT

Schnell standard RJ45 boot fits 6.5 mm to 8.0 mm OD patch cables and provides basic protection for RJ45 connectors. It helps reduce strain on the cable entry point and adds a clean, professional finish. Compatible with Cat5e, Cat6, Cat6A, Cat7, and Cat8 patch cords, this boot is an ideal solution for maintaining cable integrity and preventing damage during routine handling or installation.

CONSTRUCTION		PHYSICAL CHARACTERISTICS	
Boot Type	: Standard (non-Snagless)	Cable Outer Diameter Fit	: 6.5 mm, 7.0 mm, 7.5 mm, 8.0 mm
Material	: PVC Plastic	Bend Radius Support	: Helps maintain minimum bend radius
Design	: Clip-exposing slot, push-fit installation	Strain Relief	: Yes, reduces tension at cable/connector junction
Compatibility	: RJ45 plugs for stranded cables	Tab Protection	: Partial (standard clip-exposed design)
Cable Types Supported	: Cat5e, Cat6, Cat6A, Cat7, Cat8 (UTP & FTP)	Operating Conditions	: Indoor use (standard temperature and humidity) 23–26 AWG, Cat6 / Cat6A
Color Options	: Transparent & assorted colors for identification		
KEY FEATURES		KEY APPLICATIONS	
<ul style="list-style-type: none"> Protects RJ45 connectors from wear and damage Fits 6.5–8.0 mm Cat5e to Cat8 cables Reduces cable strain and maintains bend radius Color-coded for easy cable identification 		<ul style="list-style-type: none"> Patch cord assembly in structured cabling Office, data center, and telecom rack installations Ideal for stranded cable terminations Suitable for UTP and FTP network environments
